

**THE RUINS OF SODOM  
AND GOMORRAH  
PROVE THE BIBLE**

# THE RUINS OF SODOM AND GOMORRAH PROVE THE BIBLE

Genesis 19:12-17

The two angels said to Lot,  
“Have you anyone else here? Son-in-law, your sons, your daughters, and whomever you have in the city - take them out of this place! For we will destroy this place, because the outcry against them has grown great before the face of Yahweh, and Yahweh has sent us to destroy it. So Lot went out and spoke to his sons-in-law, who married his daughters, and said, Get up, get out of this place; for Yahweh will destroy this city! But to his sons-in-law he seemed to be joking. When morning dawned, the angels urged Lot to hurry, saying, Arise, take your wife and your two daughters who are here, lest you be consumed in the punishment of the city. And while he lingered, the men took hold of his hand, his wife’s hand, and the hands of his two daughters, Yahweh being merciful to him, and they brought him out and sent him outside the city. So it came to pass, when they had brought them outside, that he said, Escape for your life! Do not look behind you nor stay anywhere in the plain. Escape to the mountains, lest you be destroyed.”

Genesis 19:24-28

“Then Yahweh rained brimstone and fire on Sodom and Gomorrah, from Yahweh out of the heavens. So He overthrew those cities, all the plain, all the inhabitants of the cities, and what grew on the ground. But his wife looked back behind him, and she became a pillar of salt. . . and behold, the smoke of the land went up like the smoke of a furnace.”

Ron Wyatt discovered the ruined cities of Sodom and Gomorrah along side the Dead Sea in Israel. Researchers and archaeologists have since uncovered the ruins of man made limestone buildings which had been showered with sulphuric balls. The Bible says that God rained upon Sodom and Gomorrah fire and brimstone from the heavens. The definition of “brimstone” means “stone made out of sulphur.”

Above and Below Photos: The remains of the ancient city walls of Sodom and Gomorrah have 90 degree angles, cylindrical towers, square windows and arched symmetrical doorways.

Researchers were astonished to find that there is no evidence of volcanic activity in the area. Sulphur is always mined around Geothermal sites. Where did this pure sulphur come from? The Bible has the answer in Genesis 19:24:

“Then Yahweh rained brimstone and fire on Sodom and Gomorrah, from Yahweh out of the heavens.”

The Bible clearly informs us that the source of this brimstone had supernaturally come from Yahweh God out of the heavens. Archaeologists have easily pulled out sulphuric balls out of the ruins of limestone buildings of the city of Gomorrah. Amazingly, there are no other ancient ruined cities anywhere else on planet earth covered with pure sulphuric balls with its ruins turned into ash.

Sodom and Gomorrah are unlike any other ancient cities of antiquity that have been destroyed by fire or volcanoes. Modern excavations of the Roman city of Pompeii found a layer of volcanic ash on top of the limestone structures but the original stone buildings were not also turned into ash. In contradistinction, archaeologists have found that the entire limestone cities of Sodom and Gomorrah had been turned into ash through millions of highly concentrated sulphuric balls. The evidence proves that the actual city structures of Sodom and Gomorrah were turned into ash just like the Bible says:

“And turning the cities of Sodom and Gomorrah into ashes, condemned them to destruction, making them an example to those who afterward would live ungodly.” 2 Peter 2:6

When limestone rock turns into ash there must be very intense heat. The limestone buildings of Sodom and Gomorrah could not have turned to ash without very extreme heat from sulphur.

Burning wood alone could not have caused the limestone to turn into ash. The white ash found at Gomorrah was tested and found to be calcium sulphate. Calcium sulphate is the byproduct of limestone (calcium carbonate) and sulphur burning together. Therefore the ruins of Sodom and Gomorrah prove that these cities were destroyed by burning sulphuric brimstone just like the Bible says.

The swirling designs on the sides of the structures provide evidence that these buildings were turned into ash by a process called thermal ionization. This occurs when limestone rock is burnt by an unusually high heat source of up to about 6000 Degrees Fahrenheit. The swirling designs of the ruins of Sodom and Gomorrah differ from sedimentary rock which would normally have even horizontal layers (See Below Photo). The chalk like ash found in the ruined cities of the Dead Sea does not occur in other parts of the country. What could have caused such an intense heat to turn these cities into ash? The Bible has the only logical answer.

“And turning the cities of Sodom and Gomorrah into ashes, condemned them to destruction, making them an example to those who afterward would live ungodly.” 2 Peter 2:6

Above Photo: The swirling designs on the sides of the structures provide evidence that these buildings were turned into ash by a process called thermal ionization.

Sulphuric balls can easily be dug out of the surface rubble of the ruined city of Gomorrah. Lab tests revealed that these sulphuric balls were about 98% pure sulphur with measurable amounts of magnesium. Researchers were astonished at these results because all sulphur found throughout the world is usually no more than 40% pure sulphur. There is no other location on the planet where sulphur can be found in such a pure form (98 % pure).

The white ash that was tested from the ruined city of Gomorrah proves that the ash was formed by extremely hot sulphuric balls burning the limestone rock of the city to form calcium sulphate. Since calcium sulphate is not formed by burning wood (or any other flammable materials) but only by high concentrations of sulphur mixed with limestone rock we can confidently conclude that these ancient cities were destroyed just like the Bible says.

All five cities of the plain have been discovered, including Sodom and Gomorrah. Pictures of these ruined cities clearly reveal man made structures which were turned into white ash by pure sulphuric balls. Archaeologists have since revealed well over a million ancient graves just outside of the ancient city of Gomorrah. This is further evidence that a large and populated city once thrived at this location. Archaeologists even discovered charred human bones inside the ruins of these ancient cities. The Biblical narrative of the destruction of Sodom and Gomorrah and the other three cities of the plain has been proved accurate! The ancient Biblical cities have been accounted for and all suffered the same fate!

The ancient ruins of Sodom and Gomorrah prove the accuracy of the Bible. The cities of Sodom and Gomorrah were not mythical or legendary cities. The archaeological evidence proves that the ruins of Sodom and Gomorrah were destroyed by fire and brimstone just like the Bible says. This evidence should serve as a warning to all of mankind not to live like the evil men of Sodom and Gomorrah.

The ruined cities of Sodom and Gomorrah continue to lay in ashes as a clear warning to all who would practice the wicked deeds of the Sodomites.

The location of Sodom and Gomorrah and the three other cities of the plain were well known from the time of Moses even until the first century apostles of Jesus.

“The whole land is brimstone, salt, and burning, it is not sown, nor does it bear, nor does any grass grow there . . . Sodom and Gomorrah, Admah, and Zeboim.”  
Deuteronomy 9:23

Below: Archaeologists now have smoking gun evidence to prove that four of the five cities of the plain listed in the Bible were destroyed by fire and brimstone. These ruins are located around the body of water we now call the Dead Sea.
